"On examination I found it had the characteristic color and smell of diabetic urine. Under Troumer's lest it yielded anundant evidence of the presence of glucose (diabetic suvar). Its specific gravity was found to be 1030. Under treatment, she improved sufficiently to be sent to the Buffalo Lithia Springs of Virginia, which place she visited in the month of Augus, when her condition was so much improved that she returned home in the fail almost entirely tree from disease. She is now, March 6, 1875 (about a year from the attack), enjoying good health, lively, cheerful, and playful," INDICATIONS FOR TO-DAY .- For the Middle Atlantic States, clear weather, followed by increasing cloudiness, southerly winds, and nearly stationary temperature and barometer. Mr. Thomas F. Goode, Proprietor Bufalo Lithia Springs, Virginia:

Two years ago I began to suffer with a severe and constant pain in my widneys, which was soon followed by violent attacks, averaging about two a week, causing excruciating agony, from which I was frequently relieved by the discharge of stone of frem four to six grains in weight: at other times by the passage of smaller stone, and sometime, by sand in considerable quantities.

I sought, but in vain, the best medical assistance, and as the result of this state of things I was reduced to such a condition that my medical advisers told me frankly that I had nothing to hope from remedies: that my condition was a hopeless one, and I tooked to death alone for a termination of a micerable existence. Mr. J. L. Lyons, adruggist of New Orleans, about six months ago advised me to try the Buffalo Lithia Water, Spring No. 2, which I did. About a week after I commenced the use of it I had an attack of less than usual severity, in which I passed two small stones—one of which I placed in a tumbler of the water, and in about three hours found it dissolved to fine powder. That gave me confidence, and I determined to persevere in its use. I have had no attack whatever since, nor has there been any discharge of stone or sand.

The pain in my kicneys has entirely disappeared: CANE PRESENTATION AT THE TOBACCO EX-CHANGE .- The usual routine of operations at the Exchange was interrupted on yesterday about 12 o'clock for the purpose of presenting an unusually handsome gold-headed cane to Mr. R. "I have recently had occasion to try the 'Lithia Water' in a case of Inflammation and Ulceration of the Bladder, caused by the retention of urine, the result of stricture of twenty years' standing. I had exhausted all the resources, both of experience and authority, without re left, and when my patient commenced the use of it had no hope of his recovery. He has been using the water five weeks, with results so favorable that he now has every prospect of complete recovery, and without some unexpected change in his condition, will be on his feet in a short time. The effects of the water in this case have been marvellous. For the sake of humanity I shall keep a record of the case, and report to you as it advances." the golden chain that must ever bind me to you while memory lasts. I have had the pleasure of meeting some of you daily for over a quarter of a century, others not so long; but all long enough for me to have formed a strong and lasting attachment for all. I find it very hard, therefore, to sever the ties that bind me to you, and in saying good bye the eye dims, the voice falters, and the heart must ache. Gentlemen, again thanking you for this mark of your kindness, I must say good-bye. May health, long life, and prosperity attend you all. There is not a member of the Tobacco Trade who does not heartily reciprocate "In the case of 'Inflammation and Ulceration of the Bladder,' heretofore reported, the patient recovered, and I stribute the recovery entirely to the Lithla Water."
